Winter Internship Letter

To whomsoever it may concern

Garvit Kansal, from Delhi Technological University, had joined the AR Development internship, as an Augmented Reality Content Developer for NCERT Class 9th and 10th ePathshala AR Project at Elixar Systems. The duration of the internship was from 20th December, 2019 to 12th January, 2020. During the internship I found him active and hardworking. His work was commendable and this certificate is a token of appreciation for his work.

I strongly recommend him for the future studies and research opportunities that he may apply for. He made an excellent addition to our team.

Ahmad Faraaz
Co-Founder, Elixar Systems
